

Jeffrey T. Linderoth

3226 Mechanical Engineering
1513 University Avenue
Madison, WI 53706-1572
Phone: (608) 890-1931
Fax: (608) 262-8454
email: linderoth@wisc.edu
URL: <http://homepages.cae.wisc.edu/~linderot>

A Education and Employment

Degrees

- Ph.D. in Industrial Engineering
Georgia Institute of Technology, Atlanta, GA
Thesis: *Topics in Parallel Integer Optimization*
Advisor: Martin Savelsbergh
Graduation Date: August 1998
- M.S. in Operations Research
Georgia Institute of Technology, Atlanta, GA
Graduation Date: September 1994
- B.S. (with highest honors) in General Engineering
University of Illinois at Urbana-Champaign
Graduation Date: May 1992

Appointments

UNIVERSITY OF WISCONSIN-MADISON	Madison, WI
Professor of Industrial and Systems Engineering	2011 - PRESENT
Professor of Computer Science (by courtesy)	2011 - PRESENT
Associate Professor of Industrial and Systems Engineering	2008 - 2011
Associate Professor of Computer Science (by courtesy)	2008 - 2011
Assistant Professor of Industrial and Systems Engineering	2007 - 2008
Assistant Professor of Computer Science (by courtesy)	2007 - 2008
UNIVERSITÉ BORDEAUX I	Bordeaux, France
Professeur Invité, Institut de Mathématiques de Bordeaux (IMB)	2009
LEHIGH UNIVERSITY	Bethlehem, PA
Adjunct Associate Professor of Industrial and Systems Engineering	2008 - 2010
Adjunct Assistant Professor of Industrial and Systems Engineering	2007 - 2008
Assistant Professor of Industrial and Systems Engineering	2002 - 2007
AXIOMA, INC.	Marietta, GA
Senior Consultant	2000-2002
ARGONNE NATIONAL LAB	Argonne, IL
Enrico Fermi Scholar	1999-2000

Postdoctoral Research Assistant, Mathematics and Computer Science Division	1998-1999
GEORGIA INSTITUTE OF TECHNOLOGY	Atlanta, GA
Graduate Research Assistant, School of Industrial and Systems Engineering	1993-1998
Graduate Teaching Assistant, School of Industrial and Systems Engineering	1992-1993
UNITED STATES GEOLOGICAL SURVEY	Urbana, IL
Research Assistant	1991-1992
UNIVERSITY OF ILLINOIS AT URBANA-CHAMPAIGN	Urbana, IL
Undergraduate Research Assistant	1990-1992

Professional Memberships

◦ Institute for Operations Research and Management Science (INFORMS),	1992-present
– INFORMS Optimization Society	1992-present
– INFORMS Computing Society	1992-present
◦ Mathematical Optimization Society (MOS)	1994-present
◦ Society for Industrial and Applied Mathematics (SIAM)	2003-present

B Honors and Awards

Personal Awards

2009, 2011	Polygon Engineering Council Outstanding Instructor, Industrial Engineering, University of Wisconsin-Madison.
2008	University Housing's Honored Instructor Award, University of Wisconsin-Madison
2006	Eleanor & Joseph F. Libsch Early Career Research Award, Lehigh University
2005	Department of Energy Early Career Principal Investigator Award: Applied Mathematics, Computer Science, and High-Performance Networks
2005	IBM Faculty Partnership Award
2005	Lehigh Engineering Ingenuity Award for Exceptional Accomplishment in Teaching and/or Research by a Junior Faculty Member
2003	Award for best paper published in <i>Computational Optimization and Applications</i> in 2003. (with S. J. Wright)
2002	SIAM Activity Group on Optimization Prize, (with K. Anstreicher, N. Brixius, and J.-P. Goux)
2000	Outstanding paper award, <i>Ninth IEEE International Symposium on High Performance Distributed Computing</i> (with J.-P. Goux and M. Yoder)
1999	Enrico Fermi Scholar, Argonne National Lab

Student Awards

2009	INFORMS Nicholson Prize, 2 nd place, Jim Ostrowski
------	---

C Publications

Refereed Journal Publications

- [1] M. Freimer, J. T. Linderoth, and D. Thomas, “The Impact of Sampling Methods on Bias and Variance in Stochastic Linear Programs,” *Computational Optimization and Applications*, to appear.

D Invited Research Seminars

Plenary Addresses and Major Invited Talks

- [1] “Computational Grids for Stochastic Programming”, SEMI-PLENARY, 11th Conference on Stochastic Programming (SP XI), Vienna, Austria, August 2007.
- [2] “A Survey of Cyberinfrastructure in Operations Research”, TUTORIAL, INFORMS 2007 Conference on O.R. Practice, Vancouver, May 2007.
- [3] “The Football Pool Problem”, PLENARY, Open Science Grid Consortium, All-Hands Meeting, San Diego Supercomputing Center, March 2007.
- [4] “Mixed Integer Nonlinear Programming”, TUTORIAL, with S. Leyffer, INFORMS Annual Meeting, San Francisco, November 2005
- [5] “Branch-and-Bound on a Computational Grid”, SEMI-PLENARY, Research Center on Software Technology (RCOST), Mini-workshop on Computational Grids, Benevento, Italy, October 2005.
- [6] “A Survey of Cyberinfrastructure in Operations Research”, TUTORIAL, International Federation of Operations Research Societies Triennial Conference, Honolulu, July 2005.
- [7] “A Branch-and-Bound Method for Nonconvex Quadratic Programming Implemented on a Computational Grid”, PLENARY, High-Performance Algorithms and Software for Nonlinear Optimization, Ischia, Italy, June 2004.

Academic, Industrial, and Research Labs

- [8] “Solving Symmetric Integer Programs,” Industrial Engineering Seminar, Purdue University, March 2011.
- [9] “Solving Symmetric Integer Programs,” Industrial and Enterprise Systems Engineering Seminar, University of Illinois at Urbana-Champaign, April, 2010.
- [10] “Solving Symmetric Integer Programs,” Operations Research Colloquium, North Carolina State University, Raleigh, February, 2010.

- [11] "Solving Symmetric Integer Programs," Decision, Risk, and Operations Division of the Columbia Business School, Columbia University, New York, September 2009.
- [12] "A Different Perspective on Perspective Cuts," Institut de Mathématiques de Bordeaux (IMB), Université Bordeaux 1, July 2009
- [13] "Constraint Orbital Branching," Institut de Mathématiques de Bordeaux (IMB), Université Bordeaux 1, March 2009
- [14] "A Different Perspective on Perspective Cuts," Argonne National Lab, Argonne, IL, October 2008.
- [15] "Stochastic Programming for Decision Making in an Uncertain Environment," CMU-RC Research Committee Meeting, Mount Pleasant, MI, June 2008.
- [16] "Latest Developments with FilMINT," Operations Research Symposium, University of Sannio, Benevento, Italy, June 2008.
- [17] "Orbital Branching," Lawrence Livermore National Lab, Livermore, CA, May 2007.
- [18] "Solving Symmetric Integer Programs," IBM TJ Watson Research Center Operations Research Seminar, Yorktown Heights, February 2007.
- [19] "Using a Computational Grid for Optimization," Università dell'Aquila Optimization Seminar, L'Aquila, Italy, June 2006.
- [20] "Applying Integer Programming Techniques to Global Optimization Problems," SAS Institute, Inc. Cary, NC, May 2006.
- [21] "Optimization on the Computational Grid," Operations Research Roundtable, Air Products & Chemicals, Allentown, PA, May 2006.

E Student Supervision

Ph.D. Students, Graduated

- [1] Mahdi Namazifar, *Strong Relaxations and Computations for Multilinear Programming*, University of Wisconsin-Madison, 2011.
- [2] Mustafa Kılınç, *Disjunctive Cutting Planes and Algorithms for Convex Mixed Integer Nonlinear Programming*, University of Wisconsin-Madison, 2011.
- [3] James Ostrowski, *Solving Symmetric Integer Programs*, Lehigh University, 2009.
- [4] Udom Janjarassuk, *Exploiting Parallel Processors for Effective Solutions to Stochastic Programs*, Lehigh University, 2009.
- [5] Wasu Glankwamdee, *Topics in Branch and Bound on Computational Grids*, Lehigh University, 2008.
- [6] Kumar Abhishek, *Topics in Mixed Integer Nonlinear Programming*, Lehigh University, 2008.

Ph.D. Students, Current

- 7. Hyemin Jeon, Undecided, (expected 2012).
- 8. Eric Anderson, Undecided, (expected 2013).

M.S. Students

- 1. Chia-Chun Tsai; (2009-2010); Master’s Project: *Models for Mitigating Cascading in Power Grids*.
- 2. Udom Janjarassuk; (2004-2005); Master’s Project: *The Stochastic Network Interdiction Problem*.
- 3. Wasu Glankwamdee; (2003-2004); Master’s Thesis: *Lookahead Branching for Mixed Integer Programming*.

Postdoctoral Students

- 1. Claudia D’Ambrosio, 2010

Ph.D. Thesis Committees

1. Camilo Mancilla 2011, *Stochastic Scheduling in Surgical Suites*, Lehigh University Department of Industrial and Systems Engineering.
2. Tai-Hsuan Wu, 2011, *Global Routing*, Department of Electrical and Computer Engineering, University of Wisconsin-Madison.
3. Scott Denegre, 2011, *On Mixed Integer Bilevel Programming and Mixed Integer Interdiction*, Lehigh University Department of Industrial and Systems Engineering.
4. Fatih Safa Erenay, 2010, *Optimal Screening Policies for Colorectal Cancer Prevention and Surveillance*, Department of Industrial and Systems Engineering, University of Wisconsin-Madison.
5. Cheng-Han Sung, 2010, *OFDM Peak to Average Power Ratio Reducing Using Sparse Bit-Plane Coding*, Department of Electrical and Computer Engineering, University of Wisconsin-Madison.
6. Matthew Colvin, 2010, *Problems Under Endogenous Uncertainty Observation: Modeling of Non-anticipativity and Solution Method*, Department of Chemical and Biological Engineering, University of Wisconsin-Madison.
7. Naraphorn Haphuriwat, 2010, *Tradeoffs Between Target Hardening and Overarching Protection*, Department of Industrial and Systems Engineering, University of Wisconsin-Madison.
8. Matthew Galati, 2009, *Decomposition Methods for Large-scale Discrete Optimization*, Lehigh University Department of Industrial and Systems Engineering.
9. Zeliha Acka, 2009, *Integrated Location-Routing-and-Scheduling Problem: Models and Algorithms*, Lehigh University Department of Industrial and Systems Engineering.
10. Menal Guzelsoy, 2009, *Duality, Warm Starting, and Sensitivity Analysis in Mixed-Integer Programming*, Lehigh University Department of Industrial and Systems Engineering.
11. Ashutosh Mahajan, 2009, *Advances in Branch-and-Cut Algorithms for Mixed Integer Programming*, Lehigh University Department of Industrial and Systems Engineering.
12. Sarah Drewes, 2009, *Mixed Integer Second Order Cone Programming*, Technische Universität Darmstadt
13. Hyong-Mo Jeon, 2008, *Joint Location-Inventory Optimization with Unreliable Facilities*, Lehigh University Department of Industrial and Systems Engineering.
14. Shane Drew, 2007, *Quasi-Monte Carlo Methods for Stochastic Programming*, Industrial Engineering and Management Sciences, Northwestern University.
15. Yan Xu, 2007, *Scalable Parallel Tree Search Algorithms*, Lehigh University Department of Industrial and Systems Engineering.
16. Clara Novoa, 2005, *Dynamic Vehicle Routing with Stochastic Customer Arrivals and Demands*, Lehigh University Department of Industrial and Systems Engineering.
17. Dorid Mustafa, 2005, *“Internet Congestion Control: A Decentralized Rate Control Protocol Using Explicit and Implicit Congestion Notification.”*, Lehigh University Department of Industrial and Systems Engineering.
18. João Gonçalves, 2005, *Elementary Linear Programming Algorithms for Finding Starting Solutions for Primal-Dual Interior Point Methods*, Lehigh University Department of Industrial and Systems Engineering.
19. Shangyuan Luo, 2003, *Investigations of Parallel Replacement Analysis*, Lehigh University Department of Industrial and Systems Engineering.

Current Ph.D. Commitees

20. Uchechukwu Okpara, (2011), *Aviation Security: A Model to Study the Threat to Commercial Aviation from Man-Portable Air Defense Systems (MANPADS)*, Department of Industrial and Systems Engineering, University of Wisconsin-Madison.
21. Jung Seob Lee, (2012), *Improving Throughput and Power Efficiency of Graphics Processing Units (GPUs)*, Department of Electrial and Computer Engineering, University of Wisconsin-Madison.

F Grants and Contracts

1. “Large Scale Stochastic MINLP,” EXXONMOBIL UPSTREAM RESEARCH COMPANY, Principal Investigator, \$58,857, 12/10–12/11, with M. Ferris, J. Luedtke, and S. Wright, University of Wisconsin-Madison.
2. “Reconfiguring Power Systems to Minimize Cascading Failures: Models and Algorithms,” DEPARTMENT OF ENERGY, (DE-SC0002283), Co-Principal Investigator, \$1,053,904 (UW portion), 8/09–8/12, with I. Dobson and S. Wright (PI), University of Wisconsin-Madison, I. Hiskens, University of Michigan, and D. Bienstock, Columbia University.
3. “Next Generation Solvers for Mixed Integer Nonlinear Programs: Structure, Search, and Implementation,” DEPARTMENT OF ENERGY, (DE-FG02-08ER25861), Principal Investigator, \$528,476 (UW portion), 8/08–8/11, with J. Luedtke, University of Wisconsin-Madison, Sven Leyffer and Todd Munson, Argonne National Lab, and Andrew Miller Université Bordeaux 1.
4. “Collaborative Research: Next Generation Solvers for Mixed Integer Nonlinear Programs: Structure, Search, and Implementation,” NATIONAL SCIENCE FOUNDATION (CCF-0830153), Principal Investigator, \$199,997 (UW portion), 8/08–8/11, with J. Luedtke, University of Wisconsin-Madison, Sven Leyffer and Todd Munson, Argonne National Lab, and Andrew Miller Université Bordeaux 1.
“Optimization Under Nonconvexity and Uncertainty: Algorithms and Software,” DEPARTMENT OF ENERGY (DE-FG02-05ER25694) and (DE-FG02-09ER25869), Principal Investigator, \$230,637, 8/05–11/10.
5. “Short Courses in Support of Technology for Process Planning,” PENNSYLVANIA INFRASTRUCTURE TECHNOLOGY ALLIANCE (PITA X), Principal Investigator, \$36,000, 11/06–6/08.
6. “Unrestricted Research Grant,” AIR PRODUCTS & CHEMICALS, Principal Investigator, \$60,500, 7/05–4/07
7. “IBM Faculty Partnership Grant,” INTERNATIONAL BUSINESS MACHINES, Principal Investigator, \$20,000, 2006.
8. “Research on Large Scale Optimization,” AIR PRODUCTS & CHEMICALS, Principal Investigator, \$25,000, 2006.
9. “Short Courses in Support of Technology for Process Planning,” PENNSYLVANIA INFRASTRUCTURE TECHNOLOGY ALLIANCE (PITA IX), Principal Investigator, \$17,219, 11/05–3/07.
10. “Advanced Computational Techniques for Optimization,” SAS INSTITUTE, INC., Co-Principal Investigator, \$105,000, 8/05–8/06, with T. Ralphs, Lehigh University.
11. “Exploiting Cyberinfrastructure to Solve Real-Time Integer Programs,” NATIONAL SCIENCE FOUNDATION (CMMI-0522796), Principal Investigator, \$249,161 (Lehigh portion), 9/05–9/08, with T. Ralphs, Lehigh University, S. Ahmed, G. Nemhauser, and M. Savelsbergh, Georgia Institute of Technology, and A. Miller and M. Ferris, University of Wisconsin-Madison.
12. “CIEG Supplement: Exploiting Cyberinfrastructure to Solve Real-Time Integer Programs,” NATIONAL SCIENCE FOUNDATION (CMMI-0715062), Principal Investigator, \$11,750, 3/07.

13. “Computational Models and Algorithms for Enterprise-wide Optimization of Process Industries,” PENNSYLVANIA INFRASTRUCTURE TECHNOLOGY ALLIANCE (PITA VIII), Principal Investigator, \$78,588 (Lehigh portion), 4/05—4/06, joint with I. Grossmann, L. Biegler, J. Hooker, Carnegie-Mellon University, and A. Schaefer, University of Pittsburgh.
14. “Unrestricted Research Grant,” AIR PRODUCTS & CHEMICALS, Principal Investigator, \$27,500, 7/05—7/06.
15. “Take or Pay Valuation,” AIR PRODUCTS & CHEMICALS and THE BOC GROUP, Principal Investigator, \$22,500, 3/05—3/06.
16. “MW: Master-Worker Middleware for Grids,” NATIONAL SCIENCE FOUNDATION (OCI-0330607), Principal Investigator, \$209,700 (Lehigh portion), 9/03—9/07, with S. Wright and M. Livny, University of Wisconsin-Madison.
17. “A GAMS Interface to IPOPT for Large-Scale Nonlinear Programming,” AIR PRODUCTS & CHEMICALS and PENNSYLVANIA INFRASTRUCTURE TECHNOLOGY ALLIANCE (PITA VIII), \$1100, 6/04–9/05, with L. Biegler, Carnegie Mellon University.
18. “Enterprise-Wide Optimization,” AIR PRODUCTS & CHEMICALS and PENNSYLVANIA INFRASTRUCTURE TECHNOLOGY ALLIANCE (PITA VII), Co-Principal Investigator, \$50,000, 1/03—1/04, with R. Berger, E. Perevalov, T. Ralphs, and A. Ross, Lehigh University.

Equipment Grants

19. “Optimization on a Computational Grid,” ALLIANCE ALLOCATIONS BOARD, (DDM050005), Principal Investigator, 126,000 CPU Hours (2007), 200,000 CPU Hours (3/06), 250,000 CPU Hours (3/05).
20. “Numerical Optimization on the TeraGrid,” PARTNERSHIPS FOR ADVANCED COMPUTATIONAL INFRASTRUCTURE (PACI) (TG-DDM040003), Principal Investigator, 30,000 CPU Hours, (2/04).
21. “High Performance Computing for Numerical Optimization,” PARTNERSHIPS FOR ADVANCED COMPUTATIONAL INFRASTRUCTURE (PACI) (DDM040004), Principal Investigator, 11,000 CPU Hours (1/04).
22. “Grid Computing for Optimization,” NATIONAL RESOURCE ALLOCATIONS COMMITTEE (NRAC) (MCA00N015N), Collaborator, 310,000 CPU Hours, (3/00), with M. Ferris, University of Wisconsin-Madison.

G Teaching

University of Wisconsin-Madison

Course	Date	Enrollment	Eval (Max 5.0)
ISyE323—Operations Research - Deterministic Modeling	S11	25	4.6
ISyE635—Tools and Environments for Optimization	S11	50	4.7
ISyE323—Operations Research - Deterministic Modeling	F10	75	4.6
ISyE635—Tools and Environments for Optimization	S10	53	4.6
ISyE719—Stochastic Programming	S10	24	4.5
ISyE323—Operations Research - Deterministic Modeling	F09	71	4.7
ISyE320—Simulation and Probabilistic Modeling	S09	40	4.5
ISyE323—Operations Research - Deterministic Modeling	F08	78	3.8
ISyE635—Tools and Environments for Optimization	S08	27	4.3
ISyE323—Operations Research - Deterministic Modeling	F07	53	3.3

Lehigh University

Course	Date	Enrollment	Eval (Max 5.0)
IE170—Algorithms in Systems Engineering	S07	12	4.9
IE171—Algorithms in Systems Engineering Laboratory	S07	12	4.4
IE426—Optimization Models and Applications	F06	28	4.5
IE417—Nonlinear Programming	S06	15	4.2
IE426—Optimization Models and Applications	F05	18	4.5
IE418—Integer Programming	S05	13	4.4
ENG5—Introduction to Engineering Practice	F04	24	-
ISE185—ISELP Honors Seminar	F04	8	-
IE418—Integer Programming	F03	12	4.9
IE316—Optimization Models and Applications	F03	49	4.4
IE495—Stochastic Programming	S03	16	4.8
IE398—Applications of Operations Research	F02	16	4.8

External Short Courses

- “Grid Computing for Optimization: Modeling and Solution,” (with Michael Ferris and Stephen Wright, University of Wisconsin-Madison), Second International Conference on Continuous Optimization (ICCOPT-II), McMaster University, Hamilton, Ontario, Canada, August, 2007.
- “A Practical Guide to Mixed Integer Nonlinear Programming,” (with Sven Leyffer, Argonne National Lab), SIAM Conference on Optimization, Stockholm, May 2005.
- “Numerical Optimization for Large Scale Systems,” Winter School on High Performance and Grid Computing, Università della Calabria, Rende, Italy, March, 2005.
- “Experimental Algorithmics, with a Focus on Branch and Bound for Discrete Optimization Problems,” (with Cindy Phillips, Sandia National Lab), DIMACS Reconnect Satellite Conference, Lafayette College, Easton, PA, June 2004.

H Professional Service

University Service - Department Committees

University of Wisconsin-Madison

Dates	Role	Committee
2009-PRESENT	Mentor	Mentor Committee, Prof. Jim Luedtke
2009	Chair	5-year Review Committee, Prof. Leyuan Shi
2008	Member	Tenure package preparation committee, John Lee
2008-PRESENT	Member	Academic Affairs Committee
2008-PRESENT	Member	Faculty Affairs Committee
2008-PRESENT	Member	Qualifier Exam Committee, Optimization. (Chair, 2010)
2008	Chair	Colloquium Committee
2007 - 2008	Member	Graduate Recruiting and Admissions
2007 - 2008	Member	Graduate Policy and Exams
2007 - 2008	Member	Student Scholarships and Awards
2007 - 2008	Member	Qualifier Exam Committee, Stochastics, Quantitative Decision Making

Lehigh University

Dates	Role	Committee
2003-2004	Member	Faculty Hiring Committee
2002-2007	Member	Qualifier Exam Committee, Optimization

University Service - College Committees

University of Wisconsin-Madison

Dates	Role	Committee
2010	Member	Byron Bird Award for Research Publication Excellence
2010	Member	Hiring Committee, Computer Aided Engineering

University Service - Campus Committees

University of Wisconsin-Madison

Dates	Role	Committee
2011-Present	Member	Physical Sciences Divisional Committee
2011-Present	Member	Campus Planning Committee
2010	Member	Hiring Committee, Wisconsin Institutes for Discovery
2008-Present	Member	University Information Technology Committee
2007-2010	Alternate	Faculty Senate

Lehigh University

Dates	Role	Committee
2003, 2005	Member	Library and Technology Services, Hiring Committee.
2004	Member	Library and Technology Services, Compute Server Selection Committee
2003-2007	Member	Lehigh High Performance Computing Committee

Other University Service

- Mentor, Sloan Engineering Mentoring Program, 2009

External Service

Editorships

- Area Editor, Stochastic, Robust, and Global Optimization, *Mathematical Programming Computation*, 2008-present.
- Editorial Board, *Optimization Methods and Software*, 2008-present.
- Associate Editor, *Computational Optimization and Applications*, 2007-present.
- Associate Editor, *INFORMS Journal on Computing*, 2003-present.

Conference Review

Reviewed articles for the following conferences, but did not serve on the program committees.

- IPCO 2011: The Fifteenth Conference on Integer Programming and Combinatorial Optimization, 2011
- IPCO 2010: The Fourteenth Conference on Integer Programming and Combinatorial Optimization, 2010
- Euro-Par 2010
- INFORMS Computing Society Conference, 2007
- International Conference on Complementarity Problems, 1999

Proposal Review

- Austrian Science Fund (FWF)
- Chilean Research Fund Council
- Nebraska Experimental Program to Stimulate Competitive Research (EPSCoR)
- U.S. Civilian Research and Development Foundation
- U.S. Department of Energy
- U.S. National Science Foundation (Multiple panels)

Other Service Activities

- Chairman, 2015 Symposium Advisory Committee, Mathematical Optimization Society.
- Panelist, INFORMS Future Academician Colloquium, 2009.
- Area Coordinator—Integer Programming, *Optimization Online*, 2000-present.
- Area Coordinator—Applications, OR, and Management Science, *Optimization Online*, 2000-present.
- Area Coordinator—Stochastic Programming, *Optimization Online*, 2003-present.
- Area Coordinator—Robust Optimization, *Optimization Online*, 2003-present.
- Member, Technical Leadership Council: Computation Infrastructure for Operations Research (COIN-OR) Foundation, 2004-2005.
- Administrator, *Network Enabled Optimization System* (NEOS), 1998-present.

I Consulting

- Air Products & Chemicals, 2004-2006
- Axioma, 2003-2006
- Barclay's Bank 2006-2007
